Subject: website updates at Dan Weinrich Minerals

I have just added 38 new mixed specimens to the website. There is a great assortment of unusual and hard to obtain items.

Be sure to see us at the upcoming Springfield, MA show, August 11-13. We have bought many collections this past summer, not to mention regular trips to China. I have a lot of new material! Features at this show will include:

- New liddicoatite/elbaite specimens from Vietnam
- Many great classics
- Superb new material from China
- Over 100 flats of great quality specimens, all at 50% off

If you have any questions please let me know.

I plan to add a gallery with the new Vietnamese material later this week.
