Hi Dave,

I have just updated our web page with our August featured mineral, cornetite from the Star of the Congo Mine, Lubumbashi, Congo. Do you need me to fill in a form or something on your web site so you can update the "What's New" page on your web site?

Also, we have redone the information on joining as a Platinum member at <http://mineralofthemonthclub.org/platinummembership.htm>

Thanks!

Richard
