Subject: Update 8/30/06

I UPDATED MIXED GALLERY 3 WITH THE THUMBNAILS FROM THE ED HAKESLEY COLLECTION. HIS COLLECTION INCORPORATES THE FAYE POUGH (DR FRED POUGH'S DAUGHTER) ANS SPECIMENS FROM PHIL SCALISI AND OTHERS. THESE INCLUDE SUPERB LEGRANDITE, PHOSGENITE, TOURMALINE, BARITE, CHILDRENITE, EOSPHORITE, GWINDEL QUARTZ, COBALTOAN SMITHSONITE, RUTILE SIXLING, TITANITE, RED CLOUD WULFENITE, RHODOCHROSITE, SERANDITE, PSUEDOBOLEITE, ETTRINGITE AND MANY OTHERS.

ALSO, I ADDED THE ARKANSAS SMITHSONITE GALLERY. ARKANSAS WAS A MAJOR LOCATION FOR SMITHSONITE. PERHAPS, THE BEST LOCATION FOR "TURKEY FAT" SMITHSONITE AND CADMIUM (YELLOW) SMITHSONITE. THE RUSH, ARKANSAS, AREA WAS MADE INTO A NATIONAL RECREATION AREA AND MOST OF THE MINES WERE SEALED AND COLLECTING IS NOT ALLOWED. YELLOW SMITHSONITE WAS NEVER ABUNDANT AND NOW VIRTUALLY IMPOSSIBLE TO FIND. THESE GALLERIES WERE UPDATED ON 8/30/06

Remember to mention that if you are a member of Wrights Mineral News You receive a 10% discount when you mention that you are a member.
