Subject: ** DENVER 2006 UPDATE #2 is Online! **

Greetings!

Denver Show 2006 Update #2 is now online and ready for browsing! I've added dozens of additional specimens from the show in four new mineral showrooms. These new specimens includes Raspberry Fluorite from the Elmwood Mine, high quality Beryl specimens of every color and variety, incredible Rhodochrosites from the Sweet Home Mine and Germany, classic specimens from Europe and gem specimens from Brazil, China, Canada, Colombia, and other localities from around the globe! I've also included Fluorites from around the world and museum quality specimens in addition to some killer Wulfenites.
