Subject: Greenside Minerals - New Specimens

Hi,

We have just put a selection of 17 recently acquired minerals into the preview area. For the next few days these will only be available to registered visitors - they will then be available to everyone. This new selection includes gmelinite from the type locality in Northern Ireland, an amazing aquamarine on matrix, also from Northern Ireland!, and several high quality barytes from England.

Please visit us at www.greensideminerals.com

Regards,

Gary Atkinson
(Greenside Minerals)
