Subject: Greenside Minerals - New Specimens

Hi,

We have just added 11 new minerals (from Pakistan and Afghanistan) to the website. Included is a 37mm (1.4 inch), euhedral bastnasite from Muligori and 2 gemmy spessartine garnets. These specimens are available in the preview area on the Home Page. They will not be available for sale to non-registered visitors for 4 days.

Regards,

Gary Atkinson
