Welcome to Wrights Rock Shop

I updated the Masterpiece Gallery and Gallery 4.

The Masterpiece Gallery contains superb specimens of the latest find of fluorite on celestite from Clay Center, Ohio. These specimens are among the best that have been collected from that location. Also, there are specimens of fluorite, fluorite on spessartine, chalice calcite, sphalerite in quartz, fluorite on scheelite, calcite on quartz and pyromorphite from China (several of these are among the best ever found).

In Gallery 4, I added realgar, stibnite on calcite, spessartine on hyalite on quartz, fluorite, axinite on fluorite, rhodochrosite on quartz, pyrite, and pyrite on quartz from china and several pieces from worldwide sources.

Remember to mention that you are a member of Wrights Mineral News for your 10%.
