Greetings:

I recently obtained a 14 piece collection of very fine specimens all with hand crafted acrylic stands made by Bill Stone of Sunnywood Minerals. There are some outstanding pieces in this group including a large cabinet sized floater crystal of rhodochrosite studded with violet fluorite crystals from the now defunct Sweet Home Mine. To see these specimens visit:

To be removed from this list visit:

Where you can add or delete your email address from the various lists I use.

Thanks for your interest,
