**Subject:** second June update

Scrivi qui...

Dear Friends,

( la versione in Italiano è subito dopo quella in Inglese)

as we wrote, we got a wide old collection and we are now engaged in a heavy but exciting job. We have to check, register, clean, take pictures and post the new samples (more than 2500 !). In these first steps, we are posting randomly because some of the strictly "systematic" items have still old names, and we must be careful to give the exact names.

However today we have just done a second June update; on our site

<http://www.minernet.it>

we have added some new samples as the following species:

Skutterudite,

Gyrolite,

Ludwigite,

Tyuyamunite,

Leucophanite,

Tunisite,

Witherite,

Dickite,

Carminite,

Bobierite,

Irhtemite,

Astrophyllite,

06/15/2007

Wollastonite,

Hanksite,

Aquamarine,

Jarosite,

Cassiterite,

Cervandonite,

Emerald,

Cerussite,

Meyerhofferite,

Stichtite,

Ramsdellite,

Meionite,

Rutile,

Cuprite,

Parahopeite,

Brookite,

Reddingite,

Vandenbrandeite,

Shcherbakovite,

Spinel,

Creedite,

Gehlenite,

Meionite,

Barytocalcite,

Inyoite,

Parisite, ...

Enjoy !

Friendly
