Subject: New minerals from Morocco

Welcome to Wrights Rock Shop

I updated Gallery 18 with the specimens from the new find in El Hammim, Morocco - fluorite, pyrite after barite (first time), calcite, red quartz on pyrite. Also, I added sapphire, selenite, rutile in quartz, spessartine, scheelite, lepidolite, smithsonite, sphalerite with quartz, stilbite on druzy quartz and others on 9/05/07.

I will have many new specimens from the new find in Morocco and some very good rhodochrosite and chalcoppyrite on calcite with me at my shows.

We will be at the following shows:
Denver, Colorado - Holiday Inn North, Room 115
September 12 - 16, 2007

Houston, Texas - Humble Civic Center
September 21-23, 2007.
