Subject: ** New Mineral Gallery Update **

Greetings!

I'm happy to announce the first update of all the Specialty Mineral Rooms in several months!

This week, I updated the Rhodochrosite, Elmwood, Tourmaline, Beryl, Silver, and Gold rooms with new specimens from both my summer acquisitions and the Denver Mineral Show. Out of all of them, the Silver Rooms received the largest update with over 40 new items added to the four webpages of specimens. With silver and gold bullion prices at the highest levels they've seen in decades, these specimens represent an incredible value! The Beryl and Rhodochrosite rooms are also full of exciting new specimens of the highest quality! Here are the individual links to each specialty room for your browsing pleasure....

<http://www.themineralgallery.com/tourroom.htm>

Enjoy the new offerings and please e-mail if you have any questions. All reasonable offers are welcome!

Kevin
