Welcome to Wrights Rock Shop

I added 42 new specimens to Classic Gallery5 and Classic Gallery 6 including cobaltoan calcite, rhodochrosite, fluorite, pyromorohite, calcite, dioptase, legrandite, adamite, druzy quartz on chryscolla, chalcostibite, carrollite, demantoid garnet, kyanite and manganese and others on 4/25/08.

I have tried to mark the specimens with very reasonable prices. Most of these are no longer being found and I thought that you deserved a reward for being loyal customers.

Please remember to mention that you are a Member of Wrights Mineral News for your 10% discount.
