

Greetings All,

The attached Word document has our latest list of mineral and related ephemera offerings, including our new MATRIX index, an original Manchester lantern slide, a Tsumeb azurite pictured in the first edition of the Encyclopedia of Minerals, a remarkable zincite crystal, ex-Perloff/Weber and many other interesting species to entertain and torment you. As usual, first-come, first-served, all items FOB our warehouse.

The upcoming Memorial Day holiday will essentially put us in a several day backlog, so patience, patience....

Tony Nikischer
