AA Mineral Specimens Newsletter

3rd August 2008

Dear Dave Barthelmy

Welcome to our latest newsletter.

This week amongst our new stock we have some very pure azurite crystal clusters from china.

There is a cluster of sphalerite, barite and dolomite with some interesting features.

We have one of the best crystal clusters from the famous Suikoushan Mine in Hunan, China. This specimen has some amazingly gemmy ruby sphalerite accompanying some excellent galena crystals.

Also check out the rhodonites from both Peru and Brazil. You will find the differing habits interesting and instructive. Compare the delicacy of the Peruvian material with the robust glassiness of the Brazilian.

Featured is a delicate blue cluster of barite crystals from Colorado. Have a look at the other listed barite too. Barite is becoming increasingly popular as a collectable with some extremely attractive and technically significant variations coming onto the market.

There are a couple of highly unusual clusters of calcite crystals from Hunan, China. Haven't seen anything quite like these network formations of scalenohedrons before. Very aesthetic unusual and interesting.

We also feature an unusual and attractive cavansite where the electric blue crystals are disseminates rather than clustered over a matrix of white stilbite.

To see this newsletter online, click [here](#).

Happy collecting and rewarding study.

Susan and Bruce

Featured Items

Barite

Blue Barite, Stoneham, Weld County, Colorado, USA. ex Frank Knaus collection.

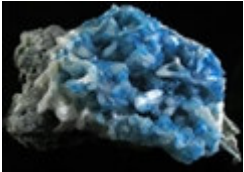

Calcite crystals

Calcite crystals, Hunan, China.

Calcite crystals

Calcite crystals, Hunan, China.

Cavansite

Cavansite, Wagholi, Poona India.

New Stock

Azurite

Azurite crystal cluster, Yang Chun Mine, Guangdong Province, China.

Azurite

Azurite crystal cluster, Yang Chun Mine, Guangdong Province, China.

Vanadinite

Vanadinite, Mibladen, Morocco.

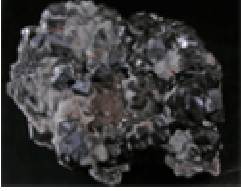

Sphalerite, Barite, Dolomite

Sphalerite, Animon Mine, Pasco, Peru.

Fluorite

Fluorite, Tai Ping Mine, Chengzhan, Hunan, China.

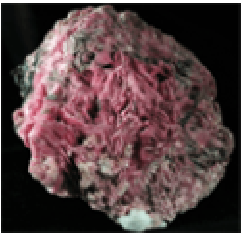

Sphalerite, Galena, Quartz

Sphalerite, galena, quartz, Shuikoushan Mine, Hunan, China.

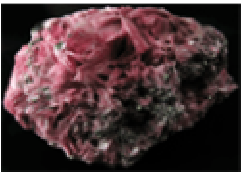

Shark Tooth

Fossil shark tooth, Otodus Obiquus, Morocco.

Rhodonite

Rhodonite, St Martin Mine, Ancash, Peru.

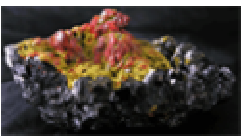

Rhodonite

Rhodonite, St Martin Mine, Ancash, Peru.

Rhodonite

Gemmy rhodonite, Minas Gerais, Brazil.

Realgar, Orpiment

Realgar, Orpiment, Galena, Sphalerite & Chalcopyrite. Paloma Mine, Huancavelica, Peru.

Golden Selenite, Halite

Golden selenite on halite, Otuma Mine, Ica, Peru.

Galena

Galena, North Mine, Broken Hill, NSW, Australia.

Hubnerite, Sphalerite, Pyrite

Hubnerite, Sphalerite, Pyrite. Morococha Mine,

Ancash, Peru.

Our Itinerary
