**Subject:** David, Don't Miss These Two HGS Events Next Week!

Hello David,

The HGS is back into full swing with these two great events next week. Come hear Dr. Nansen Saleri present a refreshing rebuttal to peak-oil pessimism at the **General Dinner on Monday**. He is the former long-time head Reservoir Manager of Saudi Aramco's 250+ billion barrels of oil reserves, and sees a bright future with growing global oil supplies. Also, don't miss the **African Conference** for the latest in exploration ideas and "Opportunity from Coast to Coast!" Details for both events are shown below.

#### **HGS General Dinner Meeting**

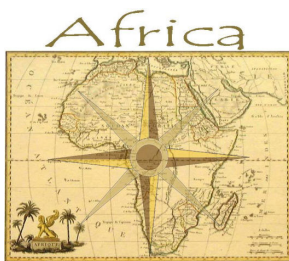

**Speaker's Name:** Dr. N. G. Saleri, President, Quantum Reservoir Impact, LLC

**Day:** Mon 8-Sep-08 5:30 PM

**Location:** Hilton Houston Westchase 9999 Westheimer Road  
Houston, TX 77042

**Summary:** "Brave New World of Oil" -- Saleri advocates an alternative scenario—a period of growth in oil supplies, despite the massive challenges posed by growing resource nationalism/access, global warming concerns, or human reservoir constraints. **Register online to guarantee a seat!**
