Subject: Greenside Minerals - Books

Hi,

We have just received more copies of Stephen Moreton's books "Bonanzas and Jacobites". The book can be purchased on the Greenside Minerals website for 9.99 GBP (currently 17.78 USD). We also have in stock copies of "Minerals of Northern England" by R F Symes and B Young (30.00 GBP - 53.40 USD).

Because of the strength of the US Dollar and the Euro (and the weakness of the British Pound) now is a great time for overseas buyers to purchase minerals and books from GreensideMinerals.com - as we are based in England.

And new specimens coming soon.

Kind regards,

Gary Atkinson
