The Second *Update* for **Denver Show 2008** is online and ready to go!

Update #2 will feature over 40 mineral specimens from the show, and this includes some gorgeous Rhodochrosites in all price ranges, Martin Zinn Collection specimens, an incredible Himmelsfurst Silver, a very rare Gold in Quartz specimen from Dahlonega, Georgia, beautiful Illinois Fluorites, and a hard to find Well Apophyllite ball on Stilbite. There are many other great specimens as well and all can be found in two new mineral rooms!

The links to the new mineral rooms are located here:

All offers are very welcome and as always, layaway purchases are available because this can make building a great collection much easier. Please e-mail if you have any questions.

Thanks again for making us your source for fine minerals!

Kevin
