Subject: Ottensite, Rosasite, Larger Turkey Fat Smithsonite

Welcome to Wrights Rock Shop

In the troubling times that we now live, family, health, love, and joy are the most important things that can be in one's life.

I hope that you have a wonderful Christmas full of joy and happiness.

Minerals brings a serenity and joy to me. I can only wish that you receive the same pleasure viewing the specimens.

I updated Gallery 8 with ottensite, larger turkey fat smithsonite, fluorite, spinel, citrine, inesite, manganocalcite, lavulite, rosasite, and others on 12/23/08.

The ottensite is from the only known location and larger specimens are very rare because the ottensite was cleaned from the stibnite.

There are two rosasite that were on hold that are placed in this gallery.

Please remember to mention that you are a member of Wrights Mineral News for your 10% discount.

Chris
