Subject: Excalibur List #20901 Ready!

Greetings Everyone, and Happy New Year!

Thirty-six years of catalogs and counting: Our first list for 2009 is attached, filled with our typical assortment of rarities, one-of-a-kind classics, old specimens from institutional collections and more. As usual, all are subject to prior sale and are FOB our warehouse. USPS Priority shipping rates will go up again this weekend, followed by more increases in May. Get 'em while you can, and enjoy the read....
