Subject: New Excalibur Mineral List#20902 Ready!

Greetings All,

Attached is our latest list, filled with a number of new species, aesthetic specimens, and old or rare uglies! A new book, well worth adding to your library, is also offered, subject to supply on hand.

Since we travel this time of year, please be patient with delivery, but rest assured that shipments will be processed in the order received, so get your wish list in early! All specimens are subject to prior sale, F.O.B. our warehouse.

We look forward to seeing many of you at the New York City Gem & Mineral Show, March 7 & 8, at the Holiday Inn @ 440 W. 57 St., NYC.

Read on!
