Subject: Mineral Oddities: Psuedomorphs, Phantoms, and others

Welcome to Wrights Rock Shop

I updated New Acquisition 3 with many mineral oddities, psuedomorphs - hematite after calcite, quartz after calcite, malachite after azurite. chrysocolla after azurite- fluorite. mimetite, vanadinite, galena, pyrite, emerald, rosasite , and many others of 2/20/09.

I will be adding more from this collection that specialized in psuedomorphs. Most of the specimens are relativity inexpensive for the quality, species, and location.

Please mention to mention that you are a member of Wrights Mineral News for your 10% discount.

Chris
