**Subject:** Greenside Minerals - Prices Reductions

Hi,

We have just updated the website with the latest set of price reductions. We've reduced the cost of more of our already low-priced English specimens. They include fluorite from Rampgill and Florence Mines; baryte from Sidmouth and the Dam Rigg Mine and calcite from Smallcleugh Mine. There are also 2 Cornish cassiterites!

This is the final set of reductions on our English specimens.

Regards,

Gary Atkinson
