**Just a reminder that the auctions are closing this evening at 7 p.m. eastern standard time. Some great specimens are currently available at bargain prices! Be sure to check these out.**

**We have updated the website with a small set of excellent new quartz and fluorite specimens from Arizona. Quite unusual for this state, these are from miarolitic cavities in granite. The specimens are from a recent find and said to be some of the best available.**

**More updates later this week ..... we have literally thousands of new specimens to add to the site during the summer. New specimens from China, many superb old classics, rare species, thumbnails, attractive inexpensive specimens, etc.**

**As always, we welcome your comments and suggestions.**
