Subject: Intense yellow fluorite, Calcite on Amethyst and others

Welcome to Wrights Rock Shop

I created the New Finds Old Friends Gallery with the new find of calcite on amethyst, calcite on fluorite, and yellow fluorite. Smithsonian after calcite, turkey fat smithsonite, and sulphur in celestite from various old finds on 6/15/09. The specimens in this gallery are among the most aesthetic pieces from their respective finds.

Please try not to let these slip through your fingers like the red quartz on fluorite.

Please remember to mention that you are a member of Wrights Mineral News for your 10% discount.
