**Subject:** New Excalibur List #20906 Ready!

Greetings Everyone!

Our newest list, No. 20906, is attached. It includes several new species, some remarkable old autunite specimens, new finds like the fluorescent marshite, and many other interesting specimens of both rare and common minerals! Some professionally prepared meteorites, nicely faceted gems and another collection round out the list. As usual, all specimens are subject to prior sale and are FOB our warehouse.

See us at the big East Coast Gem and Mineral Show in Springfield, Massachusetts, Booth 120, on August 7, 8 and 9!

Cheers!

Tony Nikischer
