Subject: Sphaerocobaltite, Arseniosiderite, Devilline, and Hematite Stalactites

Welcome to Wrights Rock Shop

I created the Sphaerocobaltite, Arseniosiderite, hematite stalactite, devilline in selenite. and fluorite on 7/20/09. THERE HAS BEEN A RECENT NEW FINDS OF SPHAEROCOBALTITE ON COBALTOAN DOLOMITE, ARSENIOSIDERITE, DEVILLINE IN SELENITE, AND HEMATITE STALACTITES THAT HAS SET A NEW STANDARD FOR MOROCCO. THE SPHAEROCOBALTITE ON COBALTOAN DOLOMITE IS ON CALCITE AND FROM A VERY SMALL POCKET OF LESS THAN 40 PIECES.

The arseniosiderite and sphaerocobaltites are reportedly the best that have been found. The color of the sphaerocobaltites is excellent.

Please remember to mention that you are a member of Wrights Mineral News for your 10% discount.
