Subject: New Excalibur List #20907 Ready!

Grrreetings All,

Our latest list, #20907, is in the attached Word document. We offer a number of new species, several old classics, and our usual assortment of interesting finds in this issue, including a remarkable find of Nevada grossular, perhaps the finest garnets ever to be found in the state!

Our usual terms apply: first come, first-served, all specimens subject to prior sale, and all are FOB our warehouse. We will close for a long road trip on August 21, so get your orders in early so that they can be processed before we leave!
