We have updated the website with 36 select and choice specimens. These have been taken from various collections - Minette, Gillis, Irwin, etc. Also a few hard to obtain "old-time" classic specimens from an old collection recently acquired.

Do not forget that the auctions close Tuesday evening at 7 p.m. eastern standard time. 55 great specimens are currently available, featuring:

- * a fine crystallized miargyrite from California (very rare)
- * Chlorargyrite from Chanarcillo
- * beautiful blue hemimorphite from Mexico
- * showy pink calcite from Morocco
- * a superb large diopside crystal from Tsumeb
- * an excellent weloganite from Canada
- * crystallized copper/silver specimen from Michigan
- * pink apatite from Brazil; gorgeous blue azurite from Morocco
- * specimens from the Peter Gillis collection.

Plus many other fine specimens. Many are enjoying our auctions and getting some great things at very reasonable prices. Join in on the fun!

As always, we welcome your comments and suggestions.
