We have just added 31 new specimens to the website. There is some excellent material here - beautiful things such as kunzite, green fluorite, gem rhodonite, spessartines from Tanzania, high quality Bulgarian material, etc. There are also interesting specimens of unusual species such as dufrenoyite, elpidite, Paakkonenite, etc.

New auction specimens have now been posted. 53 great specimens are currently available, featuring:

- * a large Japan-twin quartz crystal
- * old-time Arizona chrysocolla/quartz (1930's era)
- * classic British calcite/fluorite from Weardale (1930's era again)
- * gem pink apatite from China

Plus many other fine specimens. Many are enjoying our auctions and getting some great things at very reasonable prices. Join in on the fun!

See us in Denver! Holiday Inn room 109; Main Show J Aisle.

As always, we welcome your comments and suggestions.

Dan & Diana Weinrich
