**New specimens have now been posted to the website. Some neat things here: a classic British pyromorphite, Greek smithsonite, Tsumeb smithsonite, gem Nigerian emerald, Colorado covellite, Utah bournonite, etc.**

**Just a reminder that the special 30 piece auction of Gene Tribbey collection specimens will close this evening at 7 pm eastern standard time.**

**New Auction specimens have been posted as well. 75 great pieces; the auction will close on October 27, 2009. This is a very "strong" auction with so many neat things. Some of the highlights include:**

- \* **unusual prismatic aquamarine from Sichuan, China**
- \* **a fine cabinet sized Franklin, New Jersey rhodonite**
- \* **choice old-time Tri-State specimens**
- \* **a fine crystallized wurtzite from Bolivia**
- \* **excellent Knappenwand epidote t/n - ex Ralph Clark collection**
- \* **many excellent rare species from the Peter Gillis collection**
- \* **fine Tsumeb cerussite, willemite, calcite/dioptase, and diopside specimens**
- \* **a beautiful Chinese rhodochrosite (large rhomb on matrix with fluorite!)**
- \* **Arizona malachite; fine ex Sanborn Arizona wulfenite**
- \* **gem green tourmaline from Brazil**

**Plus many, many other great specimens!**

**As always, we welcome your comments and suggestions.**

**Dan & Diana Weinrich**
