## Welcome to Wrights Rock Shop

I updated Gallery 15 with green quartz, orange mimetite, cinnabar, stibnite, muscovite , red calcite, blue wavellite, fluorite, apatite. pyromorphite and others,

The pyromorphite has superb color. The red calcite has intense color and two types of crystals. The Panasqueira apatite is a very good older piece with quartz. I think this update has interesting classics and a few new finds.
