I updated Gallery 7 with spessartine Garnet, calcite on chlorite in quartz, selenite, muscovite, vanadinite, cobaltoan calcite, rhodochrosite, aragonite on calcite, zinblend, and others on 12/17/09.

The spessartine is from a pocket of 500 that I purchased in 2005. The specimens tend to be more transparent and bright.

Please remember to mention that you are a member of Wright's Mineral News for your 10% discount.
