Subject: Excalibur List #21001 Ready!
Attachments: 21001.doc

Greetings Everyone,

Our first list for 2010 is in the attached Word document, and this month we are featuring several new species (one of which I happily co-authored), a great discovery of excellent micropharmacolite from a new Nevada locality, plus a typical assortment of old classics from around the world.

All specimens are subject to prior sale and are offered on a first-come, first-served basis. We will NOT be in Tucson this year, so plan accordingly!

Read on!
