**Subject:** Coquimbite, Guimaraesite, Scepter Fluorite, and others

## Welcome to Wrights Rock Shop

I created Tucson 2010 Gallery 2 with hollow muscovite, large columbite crystal, hollow feldspar, guimaraesite with eosphorite, large coquimbite crystals, tapiolite, scepter fluorite and others on 2/05/10. Most of the new specimens are from new finds.

The coquimbite are among the largest crystals found of that mineral.

Please remember to mention that your are a member of Wrights Mineral News for your 10% discount.
