We have added 40 new specimens to the website. Some excellent specimens, many from the Tate Collection, are included in this update. Georgia gold, California gold, pink fluorite, blue fluorite, old-time British, crocoite, red sphalerite, Tsumeb cerussite, etc., etc.

Also a reminder that the auctions close this evening at 7 p.m. eastern standard time. This week we have 75 super specimens - there are some outstanding pieces available this week. Some of the highlights include:

- * two outstanding Tsumeb smithsonite specimens - one pink, one yellowish
- * beautiful pink fluorite from Pakistan
- * showy Pohla, Germany barite
- * Minette collection thumbnails
- * a large "decorator" stilbite from India
- * unusual quartz specimen from Morocco
- * neat Tate collection specimens
- * a fine well crystallized kermesite from China
- * strashimirite from Germany

Plus many, many other great specimens! This promises to be a great and active auction.

As always, we welcome your comments and suggestions.

Dan & Diana Weinrich
