Subject: HGS Events Next Week

Hello David,

Don't forget to register for the two HGS events next week, beginning with the [International Dinner](#) on Monday, April 19, that features a talk about new rift-related plays in the Turkana Depression in East Africa. The [E&E Dinner](#) on Tuesday, April 20, will focus on modeling the transport of contaminants in fluvial aquifers.

If you haven't already, we urge you to register for the [Shrimp Peel](#) and [Guest Night](#) events in May. The sooner we have an idea about attendance numbers, the better we can plan for these big events.

Lastly, be aware that we have made a change in the on-line registration process. If you aren't logged into the website before you try to register, **you will be prompted to do so**. This will help keep our website database clear of duplicate user records. Thanks for your cooperation.
