**Attachments:** 21006.pdf

Greetings All,

With the summer winding down, it is time to get back to work, so our latest mineral list (#21006) is presented in the attached PDF document. There are a number of new species, old classics, obscure localities and general rarities for your collecting pleasure therein.

Based on current order backlog (and summer vacation), we anticipate shipping orders from this list to start next week, immediately after Labor Day.

Looking forward to hearing from you!
