We have just added 60 new specimens to the website. Neat thumbnails from the Stewart/Sinotte collection, great larger pieces from the Henkel and Tate collections.

Also a reminder that the auctions will close this evening at 7 p.m. eastern standard time. This week we have 100 great pieces from several different collections. The overall quality of the specimens in this auction is outstanding! Highlights include:

- * a superb large Chinese cassiterite (from Dayu!)
- * bornite from Cornwall, ferberite from Pribram, vanadinite from Turkey
- * beautiful Mexican topaz, purple apatites from Maine
- * a large outstanding crystallized cerussite from Tsumeb
- * fine gold thumbnails
- * calcite/copper matrix piece from Michigan (ex Minette)
- * hand sized beautiful celestine/sulphur from Poland (ex Minette)
- * large ferro-actinolite crystal; showy rosasite from Mexico
- * neat Japan-law twin quartz crystals, one from Japan!
- * beautiful calcite twin from China
- * showy green apophyllite; gem blue Madagascar celestine

plus many, many other great specimens.

As always, we welcome your comments and suggestions.
