Subject: HGS Events in December

Hello David,

HGS will like to wish Happy Holidays to its members!

We have planned great events to start the year with a bang. The **HGS General Dinner** on January 10 will discuss the Regional Seismic Mackenzie Delta and Beaufort Sea. Dr. Menno Dinkelman, ION GX Technology Chief Geologist, will offer his interpretations of a new regional seismic survey in the Artic Canada region. survey.

HGS is offering a one-day short day course on **The Salt Tectonics of Passive Margines.** Mark Rowan from Rowan Consulting will be the speaker. The course is intended for geoscientists needing either an introduction to salt tectonics or an update in this continually evolving field.

On January 17, join us for the **HGS Legends Night.** We are honoring four of Houston's great industry legends: **John Amoruso, Dan Smith, Dick Bishop and Dave Rensink.** These gentlemen will share their presidential perspectives of HGS and AAPG and what the future holds for these cornerstone societies. The dinner will feature our special guest **Mr. Rick Fritz, AAPG Executive Director.**

The **HGS Applied Geoscience Mudrocks Conference** will be held on February 7. Learn about reservoir characterization advances of multiple Gulf Coast shale target systems, including the Haynesville / Bossier. Develop your understanding of what other productive mudrock systems may occur within the US Gulf Region. Register early! Sold out in 2007, 2009, & 2010.

[HGS General Dinner](#)

Day:Monday Jan 10-11 5:30 PM

Location: Hilton Westchase 9999 Westheimer Houston, Texas 77042

Summary: **"Regional Seismic Mackenzie Delta and Beaufort Sea"** The new regional 2D BeaufortSPAN seismic survey acquired in four phases from 2006 to 2010 in the Beaufort Sea provides a broad, deeper view of basins and crustal structure of the Meso-Cenozoic Canadian Arctic passive margin.

[AGC Mudrocks Conference](#)

Day: Monday Feb 7-11 7:30 AM

Location: Marriott Waterway at the Woodlands 1601 Lake Robbins Dr The Woodlands, TX 77380

Speaker: Multiple from Industry, Government and University

Summary: HGS presents an Applied Geoscience Conference for mudrocks system characterization to help improve exploitation of US Gulf Region "Shale Gas/Oil" reservoirs.
