Subject: New Excalibur Mineral Catalog #21105!
Attachments: 21105.pdf

Greetings Everyone!

Our newest mineral catalog is in the attached PDF file, and it is a systematic treasure trove of new species (nine are VERY new, plus a couple more!!), and it also contains descriptions of many other interesting old and obscure locality speicmens, a few "first discoveries" of interesting fluorescent minerals, a full set of MATRIX magazines etc...

All items are offered on a first-come, first-served basis, and we look forward to hearing from you soon!
