### Welcome to Wrights Rock Shop

I created the Tri-State Gallery with galena, and galena with sphalerite specimens on 9/1/11. The corner of Missouri, Kansas, and Oklahoma produced some of the best galena specimens found. Though prolific during the active days of mining, few good specimens are available. The specimens in this gallery are from the 1940's through the 1960's from various older collections.
