September 2011 Update from Fabre Minerals  
-----

Twenty-nine new great specimens that we have obtained over the last few months, including a great Pyromorphite from Zambia (Broken Hill), some fine specimens from Morocco including an unusual Vanadinite from the T-West Mine, a very good Fluorapatite from Panasqueira, 17 new specimens from the Jan Buma collections of Fluorites and Zeolites and several other not so common specimens like the Alsatian French Pyromorphite and the Kongsberg silver.

If you wish to see them please use this link:
