During the past two days we have updated the website with over 60 new specimens. Some specimens of very high quality, including silvers and golds, Tsumeb specimens, many from China, Bulgaria, etc.

This is a reminder that the auction will close this evening at 7 p.m. eastern standard time. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * fine classic epidote from Knappenwand**
- * neat sceptered aquamarine from Pakistan**
- * gemmy grossular from Vesper Peak, Washington**
- * excellent crystallized matrix copper from Michigan**
- * showy fluorite from Mapimi**
- * large orange spessartine crystal from Tanzania**
- * pretty paratacamite in gypsum from Peru**
- * numerous rare and interesting species**
- * large fine Japan-law twin quartz from China**
- * pretty red tourmaline from Vietnam**
- * showy large amethyst crystal grouping from Mexico**

Plus many, many other great specimens.

As always, we welcome your comments and suggestions.
