Yesterday we added 100 new specimens to the website. Most deaccessions from the University of Arizona.

This is a reminder that the auction will be closing this evening at 7 p.m. eastern standard time. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * a fine aquamarine gem crystal from Brazil
- * partly gemmy orange scheelite from China
- * beautiful multi-colored gem tourmaline from Afghanistan
- * excellent twinned green titanite on matrix from Austria
- * large fine British fluorite
- * old well crystallized Russian (Urals) cuprite
- * superb Ft. Wayne, Indiana fluorite
- * Nagyagite from Romania
- * a whole suite of interesting Arizona minerals
- * choice large kidney ore hematite from England
- * pretty blue azurite from Bisbee
- * plus many others

As always, we welcome your comments and suggestions.
