### Welcome to Wrights Rock Shop

I updated Gallery 16 with large specimens of trinitite, kleinite, shattuckite, malachite, sapphire, diopside, carrollite and others on 2/23/12.

The shattuckite specimens are from one of the last pockets found in 2010 and are very reasonable. The trinitite and kleinite are large for their species and simply not available except from collections.

Please mention that you are a member of Wright's Mineral News for your 10% discount.
