Welcome to Wrights Rock Shop

I updated Gallery with shattuckite, plancheite, inesite, realgar in calcite, cerussite, lorenzenite, rose quartz on smoky quartz, mimetite with calcite, trinitite, dolomite on smoky quartz, kyanite, atacamite in selenite, topaz, selenite and others on 3/06/12.

The shattuckite is among the last of the pocket that is available. There were only a limited number of pieces from the 2010.

The material from the Congo is from a Belgian collector that worked as a geologist in the Belgian Congo in the 1950's.
