Welcome to Wrights Rock Shop

I created the Barite Gallery with a new find of barite found on April, 2012, at Sidi Lahcen Mine, Djebel Ouichane, Nador, Morocco, on 9/07/12. The crystals are translucent to transparent with a good sky blue color on a limonite matrix. Some of the pieces have a hematite inclusion that gives a red brown contrast to the crystals.

Please mention that you are a member of Wright's Mineral News for your 10% discount.
