### Welcome to Wrights Rock Shop

I updated Gallery 4 with cerussite, modified green quartz, vanadinite variety endlichite, sulphur, diopside. turkey fat smithsonite, bismuth, fluorite, malachite, coeruleolactite, apophyllite and others on 10/01/12.

Chris has been searching one of the buildings that has not been touched in over 9 years. The specimens in this update are from that building. Also, he found approximately 20 specimens of Choix smithsonite. Six of the specimens are larger and with good color. I will be using the smithsonite specimens in an update this week.

Please remember to mention that you are a member of Wright's Mineral News for your 10% discount.
