Welcome to Wrights Rock Shop

I updated Gallery 20 with trinitite, optical calcite, smithsonite, vanadinite, willemite, cuprian adamite, phantom quartz, phenakite, chlorite in adularia, cavansite, calcite, galena on fluorite and others on 1/24/13.

The optical calcite is virtually impossible to obtain in this quality from Brazil.

I have updated the search engine. It should be much easier to find the mineral that you would like.
