Welcome to Wrights Rock Shop

I updated Gallery 27 with azurite, rose/red quartz, arsenatian vanadinite, topaz, ferberite, muscovite, sulphur, fluorite, pyrolusite and ramsdellite and others on 2/12/13.

The new find of geodes from Patagonia, Argentina, are filled with red to rose to purple/red crystals of quartz. There is an occasional geode that also has calcite or stringers of rose quartz stalactites.
